

SAUVIGNON BLANC 2023

Marlborough, New Zealand

ABOUT TOTARA

Totara wines are true to their region, expressing typical varietal characters, complexity, and, like the Totara tree, are made for longevity. The fruit and winemaking techniques used in the production of these wines are focused towards producing wines with a point of difference, and to be food-friendly in style.

THE WINE

Just as the strong wood of the totara tree was used to carve ocean faring canoes, Totara Winery carves their Sauvignon Blanc from the landscape of Marlborough.
